REMARKS

Claims 1-29 were in the application. Claims 1-29 have been rejected. Applicant has canceled claims 1-29 and added new claims 30 – 50. Drawing sheets for Figures 1 and 8 have been amended. Applicant respectfully requests reconsideration.

DRAWINGS

The Office Action objected to Fig. 1 because it was not clear; specifically, the font was too small and difficult to reproduce. Applicant has redone Fig. 1 so that it is now clear and easily reproducible.

The Office Action objected to Fig. 8 because it improperly contained case information within the margins of the figure. Applicant has redone Fig. 8 to correct this problem.

CLAIM REJECTIONS UNDER 35 USC §112

The Office Action rejected claims 2 and 3 under 35 USC 112, second paragraph, as being indefinite. Claims 2 and 3 have been cancelled, thus rendering this rejection moot.

CLAIM REJECTIONS UNDER 35 USC §102

The Office Action has rejected claims 1-3, 10, 11, 28, and 29 under 35 USC 102(b) as being anticipated by Thompson, et al. ("A Standards-based XML Schema Implementation Comparison Framework," HCRC Language Technology Group, World Wide Web Consortium, paper presented at Extreme Markup Languages 2001, August 14-17, 2001).

Applicant has cancelled claims 1-29 and added new claims 30 – 57. The prior art cited, Thompson, does not anticipate the new claims because Thompson does not teach or suggest determining compliance of a source document based on a source schema to a target schema by using a top-down, hierarchical approach such that not all of the elements need be checked. Thompson does not teach or suggest a comparison beginning with root nodes and then proceeding down a subtree. In Thompson, "In fact order is never considered at all: the trees are compared as if they were un-ordered." [see Thompson page 5, Section 4]

CLAIM REJECTIONS UNDER 35 USC §103

The Office Action has rejected claims 4-9 and 12-27 under 35 USC 103(a) as unpatentable over Thompson, et al. in view of Thompson, Henry S. "W3C XML Schema Test Collection," W3C, January 16, 2002, and further in view of a subset of test results from Microsoft on complex type elements (Schema Tests).

Applicant has cancelled claims 4-9 and 12-27, thus rendering their rejection moot.

Serial Number 10/662,799
Docket Number YOR920030346US1
RCE and Amendment

The new claims are patentable for the reasons stated above.

For the foregoing reasons, Applicant respectfully requests allowance of the pending claims.

Respectfully submitted,

Michael J. Buchenhorner
Reg. No. 33,162

Date: January 22, 2007
